PROJECTS

HRF Asylum, *Project Manager, UX / UI / Front End Developer-* React | JavaScript | Figma | HTML | CSS | GitHub   **2022**
- Created both desktop and mobile mock-ups for a landing page to the Office Status Tracker using Figma
- Met with stakeholders to present progress and coordinated architecture optimization tasks based on feedback
- Implemented Figma design using HTML and Less.js CSS preprocessor to build landing page
- Utilized JavaScript to build a feature that provides users with download capabilities for data chart visualizations
- Submitted pull requests for review, approval, and to be merged into the main codebase through GitHub
- Led stand-up meetings with product team of 8 developers to map out weekly goals in Jira

Adhype Visuals, *Full Stack Developer* - Vue | Node | Express | SCSS | GitHub | Website   **2022**
- Produced a professional website using Vue to showcase the company's work and help connect with clients
- Configured Vue router link to navigate pages of the website
- Created a Node backend utilizing Express to route email queries to an external mail server
- Developed a clean, modern, and interactive UI using SCSS; Deployed the app using Digital Ocean

Translator App, *Full Stack Developer* - React | Node | Express | REST API | GitHub | Website   **2022**
- Utilized React to accept user input and translate text to the desired language
- Created a Node backend API that calls a Google API to read the translated text
- Built a responsive background using JavaScript functional logic which updates based on user-selected language
- Launched the application using Digital Ocean

Nasa Photo of the Day, *Front End Developer* - React | React-Styled-Components | GitHub   **2022**
- Constructed a React application to show NASA's Astronomy Picture of the Day
- Implemented Axios and the effect hook to fetch data from two separate APIs when the component mounts
- Styled the application using custom React styled-components

EXPERIENCE

Adhype Visuals, *VJ / Content Creator* - Adobe After Effects: Illustrator, Photoshop | Resolume | Website   **2020 - Present**
- Started a small business working with clients to design and create concert visuals from concept to completion
- Provide visual content for the concerts of various artists and corporate business events

Professional Production Specialists, *Technical Director*   **2017 - 2020**
- Facilitated day-to-day operations: connected with clients, created invoices, managed projects
- Designed brand-specific content for individual clientele
- Led on-site video engineering team to ensure proper production design installations
- Managed warehouse team of 10+ members to fulfill equipment QC and prep for upcoming events

MixOne Sound, *Video Engineer*   **2011 - 2017**
- On-site lead video engineer for all events and received outstanding production feedback year after year
- Worked with artists' video teams to ensure proper setup of equipment and software
